**Social Security Office Marks Anniversary Here**

The local Social Security office, 1408 Crenshaw Blvd., this week marks the second anniversary of its opening. Although no special event is planned for the observance of the second anniversary anyone having a question regarding social security is encouraged to visit, write or phone the social security office for an answer to their question.

"Since we went into operation here," Miles Davis, district anager, said, "we have received more than 10,500 applications filed by persons entitled to Old-Age, Survivors and Disability Insurance Benefits."

"IN ADDITION to these ap-

lications, our office issued 25,000 social security account number cards and answered 42,099 written, personal, and telephone inquiries from the public in the district.

"At the present time there are over 26,000 residents of the area receiving approximately \$1.7 million monthly benefits.

"Most of the money is spent right in the area for necessities such as food, rent, clothes and utilities. We know for a fact that these checks are immediately cashed and are a tremendous stimulant to business.

"Most of the beneficiaries are 62 years of age or older.

but there are approximately 3,200 minor children and disabled children who were disabled before age 18, receiving benefits. Many of these workers never realized that the social security tax which they paid as they worked would one day help their own children."

**SURVIVORS** benefits are paid to widows, aged dependent parents and widowers. In many instances the social security benefits to individual families are the equivalent of a large estate even though the deceased worker may have had only a moderate income during his working lifetime.

In addition to monthly benefits a lump-sum death payment is made usually to the widow or widower or if they are not eligible, then the death payment is used as a payment toward the burial expenses.

**THERE ARE** about 1,600 people in the area receiving social security benefits because they are disabled. Many wives and minor children of these people also receive benefits.

It is those books which a man possesses but does not read which constitute the most suspicious evidence against him.—Victor Hugo.
